PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.

- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	**Eye or muscle twitching**	**Loss of awareness**
Altered vision	**Involuntary movements**	**Disorientation**

To reduce the likelihood of a seizure when playing video games:
1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Unlockables

You can unlock professional player portraits and multiplayer tables by accomplishing certain goals in career mode. Unlockable portraits and tables are represented by a black silhouette and question mark. Refer to the top information screen in-game for details on how to unlock these bonus features.

Blinds

At the start of each hand two "Blind" bets are put up or "posted." The player immediately to the left of the dealer posts the small blind which is usually half the minimum bet. The Player to the left of the small blind posts the big blind, which is equivalent to the minimum bet for the table. As the dealer rotates around the table so do the blinds. Blinds are posted to assure that at least two players have an investment in each hand.

Opening Bet

After each player is dealt two cards face down, players can look at their cards and make bets or "check" based upon the strength of their hand— or you can just bluff! Checking is essentially passing on your opportunity to bet but staying in the hand. You can only check if no one raised before you in the current betting round. Betting begins with the person to the left of the big blind and goes around until all players have had a chance to bet, raise or check.
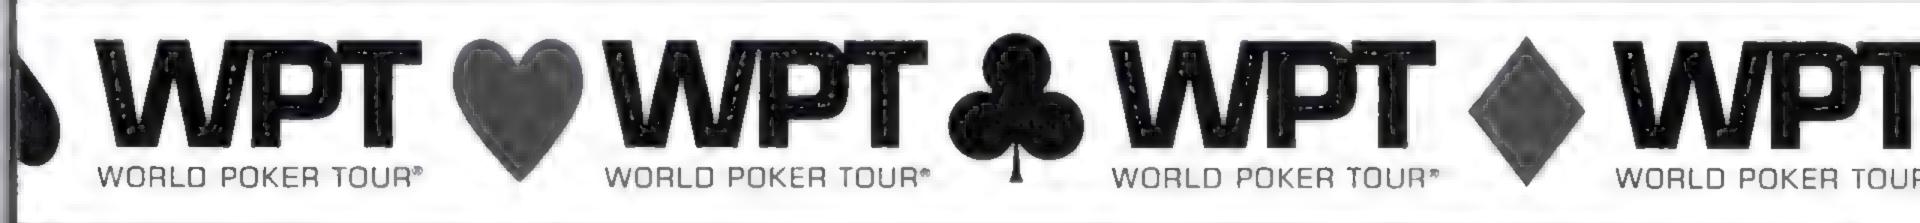

♠ 16 The Flop

After the first betting round is complete, the dealer puts three cards face up in the middle of the table. These cards are called "the Flop" and are community cards to be used by all players. Another betting round begins with the player to the left of the dealer.

The Turn

Once betting has ended for the Flop, a fourth card is placed face up in the middle of the table, next to the Flop. This is called the "Turn". Betting then resumes from the player to the left of the dealer.

The River

Following the betting from the Turn, a fifth and final card is placed in the center of the table; this is called the "River". One final round of betting begins.

The Showdown

To determine the winner, each player may use any combination of the community cards on the "board" (table) with their two cards to make the best possible poker hand. In some cases the best poker hand may be the five cards on the board. In this scenario, the players will split the pot.

THE GAMES

<u>No Limit Texas Hold'Em</u>

Easy to learn, hard to master, Texas Hold'Em is the classic version of Hold'Em poker. In No Limit Texas Hold'Em you can bet as much as you like, up to your entire stack. Each player is dealt 2 cards and five community cards are turned up on the board. Whoever makes the best poker hand wins. That is, unless you are bluffing!

1. Post Small and Big Blinds.
2. Deal 2 cards to each player, face down.
3. Begin Betting.
4. Deal the 3 card Flop.
5. Deal one card on the Turn.
6. Deal one card on the River.
7. Use any combination of your cards and community cards to make the best poker hand.

♠ 20 Limit Texas Hold'Em

This game is the same as No Limit Texas Hold'Em except that each player is only allowed to make a bet in a set amount.

Limit Omaha High

The game of Omaha High is slightly more forgiving that Texas Hold'Em. Each player is dealt four cards instead of two; each player must use 2 of the four "pocket" cards to make the best possible poker hand. Betting is handled the same as in Texas Hold'Em.
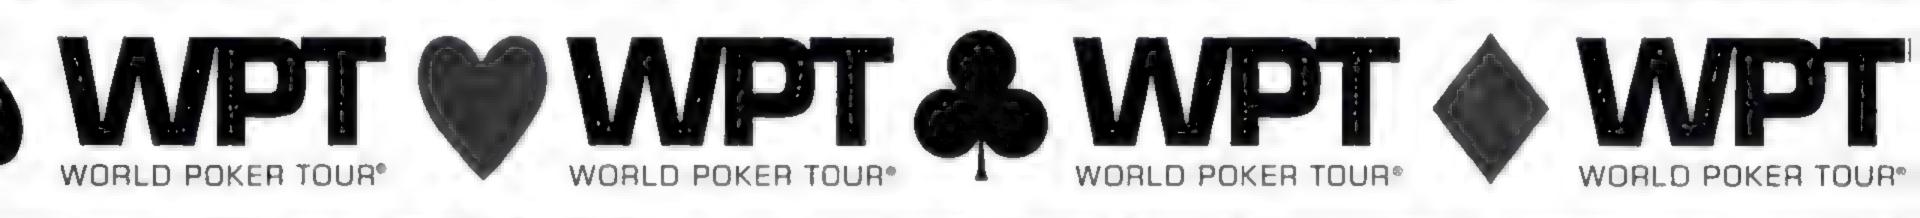

1. Post Small and Big Blinds.
2. Deal 4 cards to each player, face down.
3. Begin betting.
4. Deal the 3 card Flop.
5. Deal one card on the Turn.
6. Deal one card on the River.
7. Use any combination of two pocket cards and the community cards to make the best poker hand.

Crazy Pineapple

In Crazy Pineapple, each player is dealt 3 cards at the beginning of a hand. One of those cards is discarded after the second round of betting.

1. Post Small and Big Blinds.
2. Deal 3 cards to each player, face down.
3. Begin betting.
4. Deal the 3 card Flop.
5. After the second round of betting, discard a single card.
6. Deal one card on the Turn.
7. Deal one card on the River.
8. Use any combination of two pocket cards and the community cards to make the best poker hand.
